

StreamOne® Ion

An Unmatched Ecosystem Orchestration Platform

StreamOne® Ion is the foundation of the Tech Data digital business, putting ecosystem partners in control through data driven decisions, rich customer insights and solutions aggregation. It addresses the challenges of transactional, subscription and consumption-based IT service models and simplifies management of multiple cloud providers in a single platform with out-of-the-box support for AWS, Microsoft and Google.

Top Capabilities for Growth

Automated Multi-Cloud Billing

Simplify management of multiple cloud providers in a single platform with consolidated billing with visibility into usage and spend by customer, cloud provider, and cloud account.

Unified Customer Management

Manage everything related to your customers within a simplified user experience, including full order management. Access a complete view of products, now with more information and the ability to compare different plans to guide your customers through the decision-making process.

Real-time IaaS Consumption Visibility

StreamOne® Ion is unique in that it has a real-time connection to vendor data. Access a wide range of usage reports with up-to-date consumption to control cost, optimize Reserved Instances (RI) and monitor for fraud.

PSA Connectors

Transform your business processes, enhancing efficiency with full StreamOne® data integration to your PSA of choice. Benefit from real-time data synchronization, plus advanced sync settings for configurable control.

Business Insights

StreamOne® Ion provides a robust range of reports and dashboards that add significant value to organizations seeking to optimize their cloud usage and financial management.

Custom Pricebooks based on N-tier Profiles

With n-tier architecture, partners can add new tiers using a common, single source of data, enabling them to define custom pricing, charges, discounts, and budget alerts for any customer group at any level.

Automated Cloud-Based Solutions

Scalable, repeatable and easy to deploy Cloud solutions that help you save time and money, reduce risks and generate recurring revenue.

Full Range of API Integrations

With an API-first approach, StreamOne® Ion offers a full range of API integrations, from billing and lifecycle management to commerce.

Fully customizable white-label storefronts

Publish products to your custom branded storefront with the pricing, quoting, provisioning and billing to make it easy for customers to buy from you.
